PROFESSIONAL SUMMARY

UI/UX Designer with 1+ year of experience designing scalable web platforms, ERP systems, AI-powered products, and responsive interfaces. Passionate about transforming complex business requirements into intuitive, user-centered experiences through research-driven design, scalable design systems, and thoughtful interaction design. Strong understanding of frontend implementation enables seamless collaboration with developers and efficient design handoff.

SKILLS

UI/UX Design: Wireframing, Prototyping, User Flows, User Research, Information Architecture, Design Thinking, Design Systems, Dashboard UI, Mobile App UI, Web UI, Adaptive Design, Onboarding UX

Tools: Figma, Framer, Canva, VS Code, Notion, GitHub, ChatGPT, Claude AI, Lovable

Frontend Knowledge: HTML, CSS, JavaScript, React.js, Tailwind CSS

EXPERIENCE

ToTheByte Technologies, Noida

March 2025 – Present | Full Time

UI/UX Designer

- Delivered UI/UX solutions for 5+ web platforms, ERP systems, dashboards, and mobile applications, ensuring cross-device and user-centered experiences.
- Performed user research, competitor analysis, wireframing, user flow mapping, and high-fidelity prototyping to simplify complex workflows.
- Leveraged frontend knowledge of HTML, Tailwind CSS, JavaScript, and React.js to collaborate effectively with developers, provide implementation-ready assets, and ensure accurate design execution.
- Built reusable design systems and component libraries that improved design consistency and streamlined development.

PROJECTS

KYCCConnect.ai

[View Project](#)

Tools: Figma, Canva, ChatGPT, Lovable

- Crafted 50+ multi-device screens for public pages, onboarding, KYC/KYB/AML workflows, and admin dashboards.
- Conducted user research, wireframing, and prototyping to simplify complex verification flows and improve trust.
- Built a scalable design system with 20+ reusable components, enabling consistent UI and faster developer handoff.

TeamForge – Verified Talent Network

[View Project](#)

Tools: Figma, Claude AI

- Crafted 10+ screens for public pages, onboarding, and talent recruiter dashboards.
- Created user flows, wireframes, and interactive prototypes based on user and competitor research.
- Developed a reusable design system with Auto Layout and components for a consistent user experience.

ToTheByte Company Website

[View Project](#)

Tools: Figma, HTML, Tailwind CSS, JavaScript, PHP

- Designed and developed a 20+ screen responsive company website from Figma to production.
- Converted UI into pixel-perfect code using HTML, Tailwind CSS, JavaScript, and PHP.
- Improved usability with intuitive navigation, responsive layouts, accessibility, and optimized developer implementation.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

United University, Prayagraj

CGPA: 8.9 / 10
